**REPORT BY** Mike Freshwater, CIH, Senior Environmental Health Engineer

**DATE OF CALL** March 29, 1996

Mr. Cook, I made this survey at your request to determine the concentrations of total dust to which employees are exposed during normal plant operations. I certainly appreciated the assistance you and Mr. Wells gave me during the survey.

**Survey Results**

Table I shows the results of the survey together with the current American Conference of Governmental Industrial Hygienists Threshold Limit Value. All of the samples were well below this standard.

Thank you for the opportunity to assist you in your loss control efforts. If you have any questions concerning this report or if I can be of further assistance, please call me at (214) 650-5211.
